## INSTRUCTOR

### Frederick Ganji, D.D.S.

Dr. Ganji graduated from the Ohio State University Dental School in 1998 and has been practicing dentistry with Wendel Family Dental Centre since 2005. He is a general dentist and has a particular interest in sedation and implant related dentistry. Dr. Ganji is committed to continuing education and continuous improvement. He practices by three philosophies; draw no distinctions between work and fun, pursue excellence, and treat people the way you want to be treated. When not enjoying dentistry, Dr. Ganji likes to fish, hike, and spend time with his family.

# Anesthesia Monitoring Course for the Assistant

**February 19, 2016**

## Course Details

The Anesthesia Monitor course is an eight hour training for assistants that features an in-depth approach to those who work in a practice performing any type of sedation. This course is one day, but we will also have a two evening session available. This course is designed to satisfy the requirements for an Anesthesia Monitor. It is not an Anesthesia Assistant Course.

### **COURSE FEES & CONTACTS**

The course fee is \$295 per Assistant. Cancellations are accepted up to two weeks prior to the class with a full refund. Cancellations less than two weeks prior to the class will receive a full refund minus a \$50 administration fee.

Complete the form in this brochure or online and return with payment to:

4:00	Anesthesia equipment and monitoring
4:30	Office anesthesia emergencies
5:00	Questions/Operatory Review
5:30	Quiz

## About Us

**Dr. Wendel began practicing dentistry in Vancouver, WA in 1972. His practice evolved over time to become a prominent provider of dental health services. We have been teaching an IV Moderate Sedation with Multiple Oral and Parenteral Agents course to dentists from across the country since the mid-1990's. With the rise of different types of sedation in dentistry, and the limited courses available to satisfy state required training, we saw a need for Dental Assistants to be knowledgeable in what to look for when monitoring sedated patients. Due to our history with teaching dentists to perform IV Sedation, we are uniquely qualified to teach such a course.**
